## ***Talawanda's Health Coordinating Council***

***Purpose: To create a healthier community by addressing non-academic barriers to learning, building upon family and community strengths, and involving families and other community members in all phases of student success.***

The Talawanda Health Coordinating Council would like to share information with families on the critical role that caring adults have in preventing vaping and e-cigarette use with youth.

***The Partnership for Drug Free Kids*** has created an excellent resource to help families have these conversations. We hope this information is helpful to you.

**Remember...caring adults can have a powerful positive influence over young people's choices around substance use!**
